From a study of the rules proposed by the several Distt Bds it is seen that they all follow in the main the rules proposed by the Distt Bd Hadur in consultation with the Director of Agriculture & the Superintendent of Sericulture —

One novel condition has been proposed by the Distt Bd Tumkur that the applicants for Scholarship should not accept Govt Service at least during the 1st five years of their training failing which the amount of expenditure spent on their training should be returned to the Distt Bd —

This raises the questions for consideration —

1) Whether they can accept service under the Distt Bd +

2) Whether their services can be exchanged with officers under Govt in the exigencies of service after their training. In this respect these candidates may be treated as medical scholars

Distt Bds.

It would perhaps be better if the applicants are required not to apply for Govt Service after their period of training.

CIRCULAR MEMO ~~Endrsmt~~ no 1/1800-7.
dt 8/9/26.

It has been the practice for the ~~several~~ District Boards in the State to grant scholarships to those who are desirous of pursuing special courses in Agriculture, Sericulture and also several industries, trades or arts in institutions both in and outside the State. There are however no definite ~~scheme or~~ rules for the grant or administration of these scholarships. Each case is decided on its own merits. While it is necessary for the Boards to encourage training in these directions, Government consider that the grant should ~~not be haphazard but~~ should be subject to a scheme to be adopted by each Board with reference to the amount to be set apart by ~~them~~ it in ~~their~~ its budget each year for any one or more courses.

The Presidents of District Boards are requested to submit for consideration of Government draft rules which they propose to issue in this behalf so as to suit the condition of each District. ~~Among these Rules~~

The foll'g among other conditions may be prescribed in the rules.

These scholarships ~~should~~ no be granted only to those who intend to adopt as their profession in life, the particular subjects for which they are granted and who have aptitude for the same. For Agriculture and Sericulture scholarships ~~it should also be laid down that~~ the candidates or his family should possess landed property in the State and there should be a definite understanding that the knowledge will be utilised for the improvement of the land or the Sericultural industry.
